Water spray, normal foam, dry agent (carbon dioxide, dry chemical powder.)

**Specific Hazards arising from the Chemical:**
In a fire or if heated, a pressure increase will occur and the container may burst. Combustion products may include and are not limited to nitrogen oxides, carbon monoxide, and carbon dioxide.

**Specific Protective Equipment and Precautions for Firefighters:**
Firefighters should wear NIOSH approved self-contained breathing apparatus and protective clothing. If safe to do so, remove containers from path of fire. If involved in a fire, keep containers cool with water spray.

### 6 Accidental Release Measures

**Emergency Procedures:**
Keep area clear of personnel until area has been properly cleaned.

Slippery when spilt. To avoid accidents, clean up immediately and shut off source of leak, if safe to do so. Wear appropriate protective equipment to prevent any contamination of skin, eyes, and personal clothing. Provide sufficient ventilation.

**Environmental Precautions:**
If contamination of sewers or waterways has occurred, advise local emergency services.

**Methods for Containment and Cleaning Up:**
Contain spill with absorbent (soil, sand, or other inert material) or spill kit to prevent contamination of sewers or waterways. Neutralization agent is not recommended within building, as toxic vapors may be omitted. Properly dispose of used absorbents in accordance with local, state, and federal regulations.

### 7 Handling and Storage

**Precautions for Safe Handling:**
